Mission Constructors Kicks Off New Construction Project for The Brookwood Community Main Campus in Brookshire, Texas.

On Friday, September 14, 2018, a Groundbreaking Ceremony was held to kick-off the construction of the new Center for Education and Enterprise Building.

[The Brookwood Community](#) provides an educational environment that creates meaningful jobs, builds a sense of belonging and awakens real purpose for adults with disabilities. As a nonprofit organization, the Brookwood Community serves over 230 adults with disabilities. There are 112 residential Citizens and 110 day program Citizens.

The new center will increase the amount of space for Citizen work programs and warehouses so that 75 more Citizens can work at Brookwood.

The project consists of a single-story building with a footprint of 44,300 square feet. It will be a steel-frame construction consisting of drilled and under-reamed footings planned to be utilized to support the loads of the new education building's structurally suspended floor slab system.

The construction team consists of: Mission Constructors as the general contractor, Gabriel Architects, structural engineer is Pinnacle, H2B is the civil engineer and Wylie Consulting Engineers is the MEP engineer.
